Summer Fun in the Co-op

Once again the sunny and warm summer weather is here!

We hope to see everyone outside enjoying this lovely weather. There is plenty to do around the co-op this summer as you can check out the new community gardens, play a game of basketball at the repaved court, take the kids to the playground and come out and enjoy our community BBQs at the community center.

Summer Community Barbeques

Thanks to everyone who attended the BBQ on July 7. Good food and great company!

Our next community BBQ will be on August 25 at 6pm at the community center. Hamburgers, hotdogs, drinks and freezies will be provided. Please bring a dessert or salad to share.

Community Garden

This month we would like to give a special thanks to all those came out to help with the construction of the community garden. The project took 2 days and went off without an issue. The Gardens are looking beautiful and are growing strong.

Those who planted their own segments will reap the rewards of their work. The Gardens, as well as a very pretty bridge, are located next to the basketball court for those who haven't already come out to take a look. Let's keep up the great work and have these grow and develop for years to come!

Joan will be reporting the project's success back to CHF Canada, The agency who provided the grant money to build the community garden. CHF Canada will likely highlight this project in their national newsletter.

Basement Project & Work Orders

We apologize as the basement improvement project in the stacked units has been taking longer than originally anticipated. Please remain patient. Neil is doing the urgent work orders as they occur. Neil will be getting to the backlog of non-urgent work orders in August.

Reminders

Please Maintain Your Lawns

The recent weather has caused a growth in both our front and back lawns. As a result there is more need than ever to keep an eye on how long your grass is. Please be careful though, if your lawns are looking brown due to lack of rain, do not mow them because mowing them will cause sun to burn the grass. The best day for mowing is after the lawn care company comes on Tuesday or Wednesday. For those already on top of their lawn care, keep up the great work!

Garbage Bins

Please put your garbage bins away in the evening after collection. Please place them either in your front alcove or your back yard close to the back door. Don't leave them on the sidewalks or at your garbage spot.

Welcome New Members

Please extend a warm welcome by saying hello or introducing yourself to the new members as they move in. Let's make our community a warm and welcoming place.

Updates from the Board

Co-op Webpage Coming Soon!

This year the Board has been working on making up a new website for use by the co-op members. The website will contain information sections, work order print-offs, co-op news updates, and much more. Expectation is that this project will be done by the fall of this year. More exciting updates on this project to come!

Unit Inspections Complete

Thank you everyone for your cooperation with the unit inspections. The inspections help us plan future projects and to know what work and updates are needed.

Special thanks to the members creating the webpage and newsletter for all their hard work
